SAFETY BY DESIGN

The World's First Fall Protection Anchorage Using Water

- Water filled neoprene counterweight fall arrest anchor system.
- Sold individually as a single point fall arrest anchor or in a kit with FallTech's 777075 four person 75' temporary horizontal lifeline fall arrest anchor system.
- Tested and approved for use on a wide variety of low slope roof surfaces (See instruction Manual for complete list of surfaces).
- Weighs less than 17 LBS. when empty and comes with a carry bag for stowing.
- Requires no holes be drilled in mounting surface.
- Requires no heavy weights be lifted to mounting surface.
- Installs faster (Fills in 8 to 10 minutes) than traditional counterweight systems.
- Less expensive than traditional rooftop counterweight systems.
- Single point anchor part#7433, HLL Kit part#778000

Principle Features:

Material: Fire resistant neoprene
Surface Contact Dimensions: 4'4" X 4'4"
Weights: Empty= 17 LBS., Full= 947 LBS.
Pressure Loading: 50 LBS. per square foot
Puncture Resistant

Patent Pending No. 0901634.6
